

As CCA plans to reopen for in-person learning on Wednesday, September 2, 2020, we know that you are wondering what to expect.

Here is a quick overview of what parents and students should expect for the start of school:

1. Parents are responsible to monitor their child(ren) each day for COVID-19 symptoms. School nurse, Karen Bramble, is the contact person to report COVID-19 symptoms, quarantines, and test results. We ask that parents please keep their child home if they are experiencing any COVID-19/sick symptoms. **This is foundational to the rest of our building policies and procedures.**
2. Non-essential visitors will be limited. Parents may enter only up to the school office on a need basis if they are able to appropriately answer the COVID-19 questions. All parent meetings will be held via Zoom.
3. Students should have a face covering and a spare. Face Coverings should be labeled with the student's name. Face Coverings will be worn at all times except for lunch, recess & "face covering breaks." Face coverings refers to masks, shields, or gaiter masks. Please refer to [CCA Face Covering Policy](#).
4. Students will be given teacher-approved mask breaks routinely throughout the day.
5. Elementary students who choose to wear a shield, will need a mask to wear out to recess and PE. Once outside, masks will be stored in a Class Pocket Chart. Class Pocket Chart will be sanitized daily.
6. For JH/HS PE classes students will need to store their face covering in their pocket or have a bag to bring with them to store their masks when classes are held outside.
7. Students will be distanced to the best of our ability in the classrooms, hallways, and bathrooms to help keep risk and exposure down.
8. Students will be encouraged to wash hands/sanitize hands regularly. While classrooms are equipped with hand sanitizer pumps, students having their own personal hand sanitizer will help facilitate a greater frequency of hand sanitation.
9. Students should bring their own water container. The "Water Stop" bottle fillers will be available for their use. Drinking fountains will be inaccessible.
10. Locker and coat rack use will be limited.
11. Our entrance policies have changed to limit exposure. JH/HS students will enter their homeroom immediately after entering the building.
12. Hallways will utilize traffic patterns to promote social distancing. Junior High School and High School will utilize a staggered bell to promote social distancing in hallways.
13. Lunch periods will be broken down by grade. Students will rotate eating lunch in the Café and classroom (Elementary rotates on a daily basis; Jr./Sr. High school rotates on a weekly basis).
14. Hot lunch will be individually served (no self-serve options). Use of microwaves for heating up food is suspended.
15. Dismissal will be staggered for Drivers, Walkers, Septa, Carpool, and Bus riders to promote social distancing.

16. Elementary Clubs and HS Drama Club have been suspended for the fall.
17. HS Volunteer Service requirements have been suspended for the year.
18. Distinct cleaning protocols and procedures have been put in place for regular education classes and specials/elective classes.
19. CCA will increase cleaning of common areas and highly used areas incorporating the use of an electrostatic sprayer for the aggressive disinfection of surfaces.
20. The Nurse's Office will have increased sanitary and social distancing protocols. Students who are sick will be kept in an isolated area. Parents are asked to pick-up sick students promptly and should have a back-up plan in place in the event that their child becomes ill. Please see the [Frequently Asked COVID-19 Questions](#).
